Winter Blizzard Competition

Sunday, January 17

Learn to Skate USA Competition

Events will include solo program and compulsories for Basic Skills, Aspire, Adults, Excel and Well Balanced levels.

Registration opens on November 1.

Deadline is December 16.

Sign up for two classes & get 50% off the second class!

Sign up a single skater for two of the same class level on different days and receive 50% off the second class.

Only applies to main curriculum classes: Snowplow Sam 1 through Aspire High Free Skate. Does not apply to Axel Workshop.

Beginner Skater Information - What class do I sign up for?

New skaters who are 3-5 years old should sign up for Snowplow Sam 1 class. All Snowplow Sam classes are 30 minutes long. Skating skills are taught in a play-based method through games, pretend play, and songs. The emphasis for these young skaters is instilling confidence on the ice as well as balance and skating skills.

New skaters who are 6-15 years old should sign up for Basic 1 class. Basic 1 class focuses on marching, gliding, swizzles, dips, and backward skating, but more importantly on balance, strength, and self-confidence.

For new skaters who are 11 and up, we also offer a Teen Basic Skating Class and Adult Skating Class.

Please arrive 10 minutes ahead of your class to get your skates on. Skate rental for classes is \$2.50/pair. You can pre-pay for the session upon registration. Your skater will need to wear warm clothes including athletic-style pants or leggings, socks that go higher than the ankle, jacket or sweatshirt, and gloves or mittens. We discourage snow pants as they are bulky and usually slippery making it difficult for the skater to stand up on their own.

On the first day of classes, your skater's instructors will go over some basics in the lobby before getting on the ice including how to march on ice and how to properly fall down and get up. We know that for most of your children, this is the first time they are ice skating. Our instructors are trained to work with absolute beginners. After the first week, your skater can come directly to the ice at the time of their class. There will be an evaluation on the second to last week of class to determine their next class placement.

Ice skating involves a considerable amount of balance, control and concentration. Please be sure your skater had a snack and used the bathroom before class.
